Fairy Tales in Czech Paradise

Come to the town of Jičín, which every September transforms itself into a town of fairy tales for a whole week. You can visit the Museum of Games all year round and become directly involved in a "trip through history". See the famous kind-hearted cobbler and full-time highwayman in Rumcajs Cobbler's Shop under Jičín tower. Last year a castle in Staré Hrady between the towns of Jičín and Sobotka was re-opened to the public. One of the expositions here called "Through

Time back to Fairy Tales" has been entirely devoted to children.

In Pursuit of Monsters and Such throughout the Hradec Králové Vicinity

In May make sure you set out for the White Tower, the dominating feature of HK, where you will find the exposition called "Monsters on Tour". After this scary experience you may want to relax in the Aquapark, enjoy the "sea" waves and have a ride on a toboggan. Another attraction awaits you nearby – a trip on a steamboat or pirate vessel along the River Elbe. And finally, on May 23, not only boys who like playing soldiers will feast their eyes on the XVIII.C.K.MANÉVRY (army manoeuvres) staged in Hrádek u Nechanic Castle.
